Tools & Process: Git, Jira, Scrum, Agile, Code Review, Design Systems, Responsive Design, Accessibility

EXPERIENCE

Front-End Engineer, Iran Airtour Airline — Tehran, Iran

Jul 2025 – Present

- Develop enterprise React applications for Aircraft Maintenance, Inventory and Cargo Operations teams.
- Redesigned the ULD (Unit Load Device) Tracking System's UX, reducing human operational errors by ~90%.
- Contributed to a Weight & Balance System that raised cargo capacity 10–15% and cut excess fuel use by ~9%.
- Built reusable components and complex Formik/Yup forms on Redux Toolkit, improving data accuracy.
- Collaborate with back-end, QA and business teams in Agile sprints; raise code quality via code reviews.

Front-End Team Lead (Part-time), RICS Software — London, UK (Remote)

Jun 2025 – Apr 2026

- Led a remote front-end team on a UK product, owning delivery, prioritization and technical direction.
- Introduced a scalable front-end architecture and a Scrum workflow in Jira for planning and visibility.
- Translated business requirements into technical plans; helped build and integrate AI-based modules.

Front-End Engineer, Youtopin — Tehran, Iran

Dec 2023 – Jul 2025

- Owned front-end architecture of the React CRM/Admin Panel and Next.js site, setting reusable UI standards.
- Cut page response time from ~500 ms to ~100 ms by optimizing Next.js rendering and asset loading.
- Migrated the website from Next.js 12 to 14 with backward compatibility and Core Web Vitals improvements.
- Raised sales-team efficiency 30% with CRM workflows, Single Sign-On (SSO) and real-time updates via SSE.
- Increased user engagement 15% by leading a design-system redesign across the platform.
- Built an internal SEO content management tool and a financial module, reducing engineering dependency.
- Mentored junior engineers, led code reviews and partnered with Sales, Marketing, SEO, Finance and BI.

Front-End Developer, Iran Samane — Tehran, Iran

Dec 2022 – Dec 2023

- Developed ERP and project-management modules with React, Vue.js and Vuetify, integrating RESTful APIs.
- Built reusable Tailwind CSS components and validated forms (React Hook Form, Yup) to reduce input errors.
- Built accounting dashboards and PDF reports with Chart.js and html2pdf.

WordPress Developer, Structural Processing — Tehran, Iran

Sep 2020 – Oct 2022

EDUCATION

Associate Degree in Business Administration, Allame Tabarsi University

2018 – 2020
